

Stem-And-Leaf Plots

After careful review of the **BANA BRAILLE CODES UPDATE 2007, pages N16-N22**, I am have several questions regarding the **FORMAT** (placement/margin in effect) for the stem-and-leaf plot where it applies to:

- 1). Numerated items?
- 2). Numerated items with sub-items?
- 3). Under directions before a numerated item?

I am aware that the new section, §196, informs the transcriber that **BRAILLE FORMATS, Rule 8**, is used to create this *Specialized Table*. Is it presumed that **ALL Stem-And-Leaf Plots** are to start in the **MARGIN** regardless of the Nemeth Code Book?

Braille Formats does **NOT** govern or discuss these questions that I have raised above, but more importantly, neither does the new section, §196, of the Nemeth Code Book.

Please see the following **PRINT PAGE** and **BRAILLE PAGE** examples provide below. Your input would be a great deal of help in trying to stay **Consistent**, as well as applying the proper rules.

27. Denzell's science quiz scores are 11, 12, 13, 21, and 35. Which stem-and-leaf plot best represents this data?

A

Stem	Leaf
1	1
2	1
3	5

3|5 = 35

B

Stem	Leaf
1	3
2	1
3	5

3|5 = 35

C

Stem	Leaf
1	1 2 3
2	1
3	5

3|5 = 35

D

Stem	Leaf
1	1
2	1 1
3	5

3|5 = 35

28. The stem-and-leaf plot shows the points scored by the Harding Middle School basketball team.

Points Scored

Stem	Leaf
4	7 8 8 8
5	0 0 2 3 7 9
6	1 6
7	
8	4

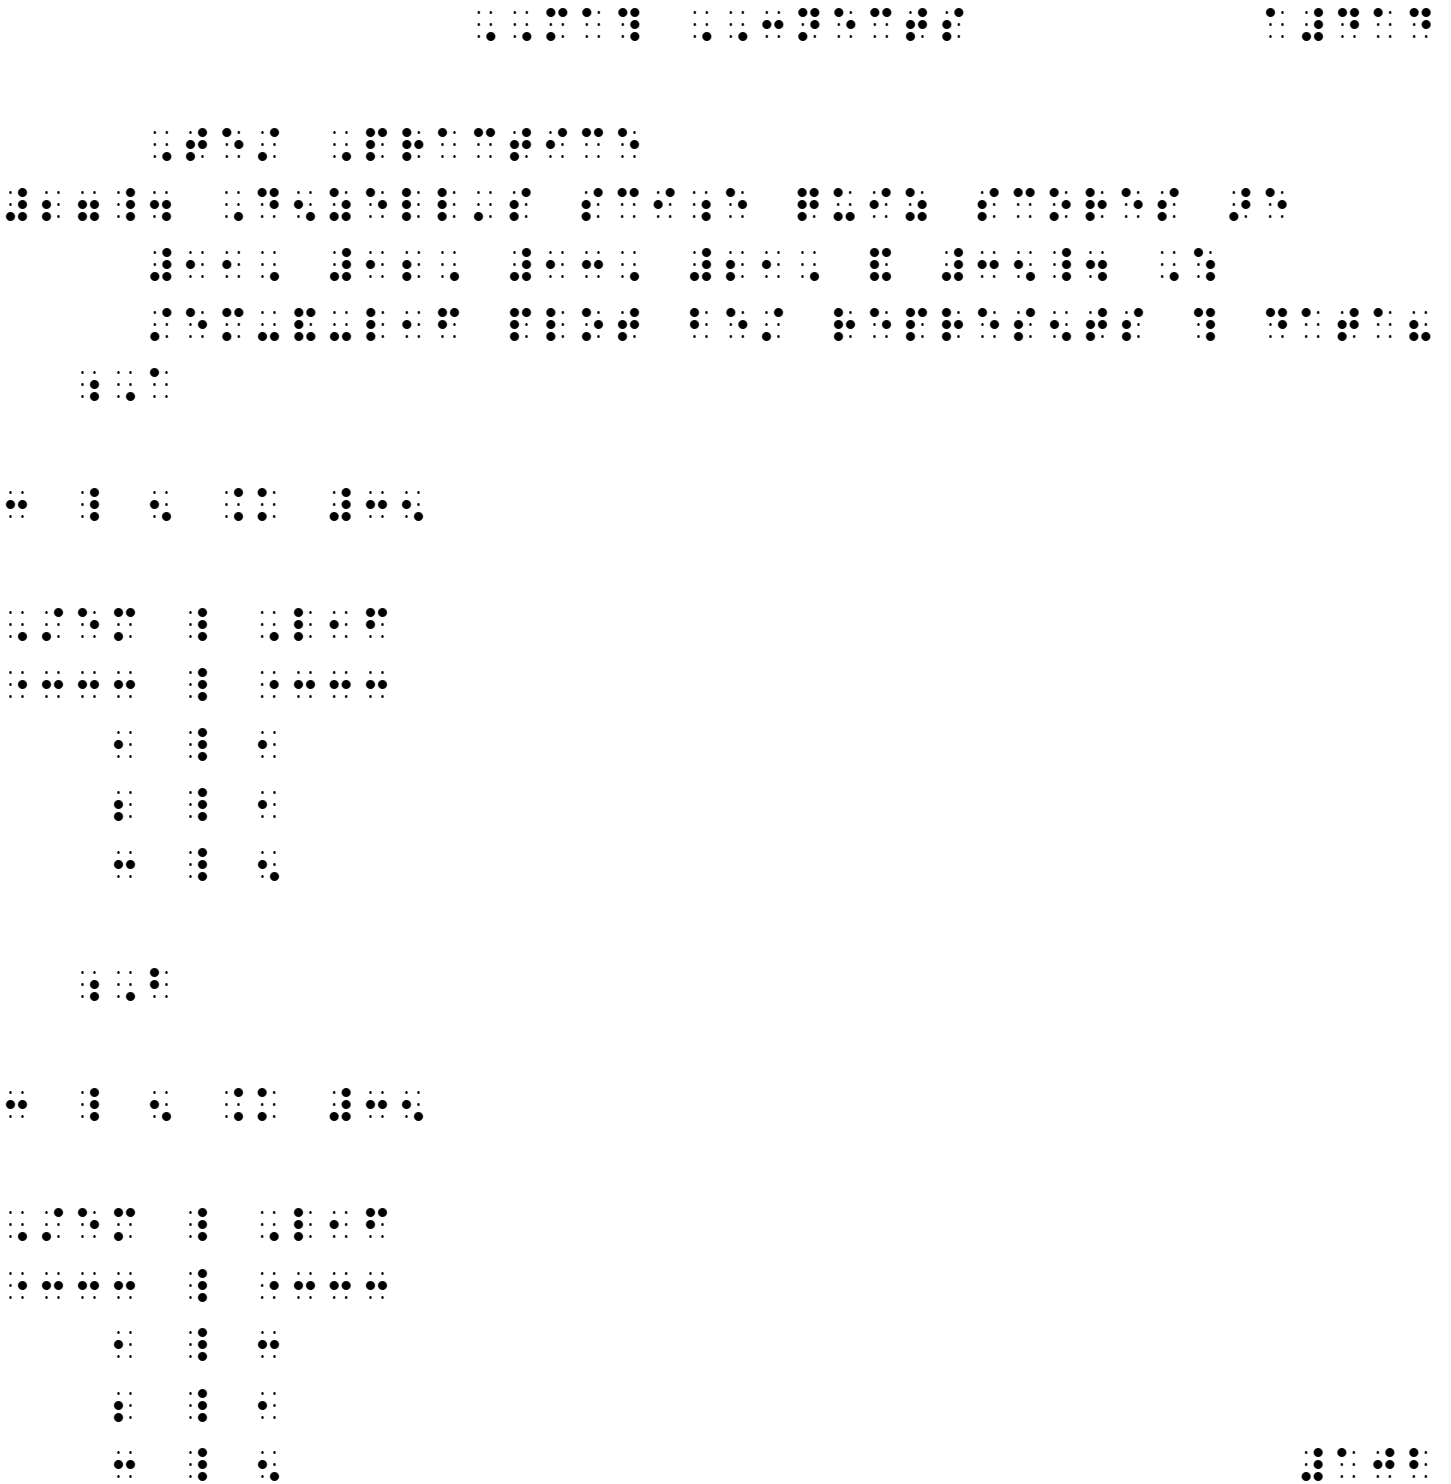

7|0 = 70

Which one of the following statements is true concerning how the measures of central tendency are affected by the inclusion of the outlier?

F The mode is most affected.
G The median is not affected.
H The mean is most affected.
J None of the measures of central tendency are affected.

BRAILLE EXAMPLE 1.

Stem-And-Leaf Plot started in the MARGIN.
